DATE: March 1, 1994

RE: **Game Code Updates** 

In our continuous efforts to provide you with updated release game code. We will be sending all code updates on 3.5 or 5.25 inch disk(s). Let us know if this is acceptable, or if due to circumstances a computer is not available to retrieve software from disk. It is very important that you check the appropriate box below and return it with your Company Name by fax to the Technical Support Department, phone 708-345-7718. We feel this is a more efficient approach in getting updates to all customers in a timely manner.

Because of the file sizes, all files will be zipped in a ".zip file." The ROM size formats are CPU C5 & SOUND U7 = 512K, DISPLAY ROMØ & SOUND U17, U21, U36, U37 = 4MB. At Data East we are using the Needhams EMP programmer which is virtually interfacable to all PC's. This is an inexpensive solution to handle all your ROM programming needs.

If you have any questions, contact Joe Blackwell or Eric Winston at 1-800-KICKERS.

SEND INFO ON DISK:		
3.5"	5.25"	NO*
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

\* Choosing "NO" indicates you want the information sent on ROM.

one box please.
